

NAMAN JAIN

COMPUTER SCIENCE ENGINEER

PROFILE

I am a determined undergraduate Computer Science Engineering student at VIT Chennai, India, with a strong passion for technology. I am currently developing my coding skills in Python, C/C++, Java, and web development. My goal is to build a successful career in IT, where I can continuously learn, solve complex problems, and contribute to innovative technological solutions.

Apart from academics, I have a deep interest in digital content creation and its influence on technology and society. I actively explore this evolving space while balancing my studies. I am a motivated learner seeking internship opportunities in the IT sector, where I can apply my technical skills, collaborate with teams, and grow professionally. Let's connect and explore how I can contribute to your team!

EXPERIENCE AND OPPORTUNITIES

- **Hackndroid:** Managed logistics, coordination, and execution as part of the core team, with 470 participants.
- **Pitchathon:** Served as the promotions lead in the core team, playing a crucial role in attracting over 350 participants.
- **Codevolt:** Part of the on-day operations team, organized by **Raptee** and **Zoho**, with 400 participants, gaining valuable volunteering insights.
- **Intro to AI:** I participated in the Intro to AI certified workshop conducted by the AI Club at CFI, IIT Madras, during Summer School 2024.
